iPhone - network status check

This service lets You check operator and country where iPhone or iPad is locked and many more. This information is necessary for permanent unlock (sim lock remove). This check is done based on IMEI, which You can get by typing in *#06# or pressing 'i' in not activated iPhone. Turnaround is 5 min to 24 hours.

IMPORTANT! Before You order iPhone must be connected with iTunes with any sim card inserted into phone.

Now network check service provides the following information:

- Network in which phone is locked
- Serial number
- Colour / Memory capacity
- Warranty period
- Current firmware version

Sample check result:
