- Security code reset in DCT4 and BB5 cell phones without loss of data
- Tampered code reset (when the limit of code entries exceeded) without data loss

Cyclone DCT4+ RSA Clip Adapter User Manual

1. Connect the clip to the box diagnostic port
2. Connect a phone to the box service port
3. Connect a battery to the clip
4. Connect clip USB cable to box USB socket
5. Cyclone Box will run in CLIP mode

How to use Cyclone Box in Clip Mode

- Use S1 button to change Clip Mode
- The Mode is signaled by LEDs slow blinking:
    - Red LED: Read info mode (check phone connection)
    - Green LED: Unlock/simlock mode
    - Blue LED: Reset security code
- After you have chosen the mode, press S2 and wait for results. If everything works correctly, the green LED will blink fast. The red LED will blink in case of failure.
